All EREF Online Solid Waste Courses are
25% Off Through December 31, 2014

Raleigh, NC (December 8, 2014) – The Environmental Research & Education Foundation (EREF) is offering a special holiday discount on its online courses. The online courses are part of EREF’s Continuing Education program, which is designed to inform policymakers, practitioners and others about cutting edge research and solid waste management practices via meetings and online continuing education. Online courses provide quality and beneficial content to members of the solid waste industry to improve and excel in their professional field. To receive a 25% discount on the registration fees for each course, industry members should visit www.erefcontinuiningeducation.org and use the promotional code HOLIDAY.

EREF’s Continuing Education program offers courses in the following focus areas: landfills, recycling, special wastes, waste collection, waste diversion, waste reduction and waste to energy. Certificates of Completion will be provided to those who successfully take a course and successfully pass a brief quiz.

The following courses are now available:

- Introduction to Stormwater Permitting
- Landfill Gas Flow through Solid Waste
- Leachate 101
- Leachate 201
- Landfill 101 – Part 1: Regulations, Permitting and Siting
- Landfill 101 – Part 2: Conceptual Design
- Landfill Gas 101
- Bioreactor Landfills & Leachate Recirculation 101
- Bioreactor Landfills & Leachate Recirculation 201
- Landfill Gas to Energy
- MSW Performance-Based Evaluation of Post-Closure
- Landfill Gas to Energy: Case Studies
- Wastes from Oil & Gas Fields in Shale Formations
- Coal Ash Management and Regulations
- Modeling Hydrogen Sulfide Generation from C & D Fines
- Aluminum Waste Disposal Field Issues
- Aluminum Waste: Model Practices and Research
- Aluminum Waste: Ongoing Research & Case Studies
- Collection Safety and Ergonomics
- Collection 101
- Anaerobic Digestion 101 Part 1
- Anaerobic Digestion 101 Part 2
- Thermal Conversion 101
- Fundamentals of Sustainable Waste Management Part 1
- Fundamentals of Sustainable Waste Management Part 2
EREF is a 501(c)3 class charity that funds and directs scientific research and educational initiatives for waste management practices to benefit industry participants and the communities they serve. For more complete information on EREF funded research, its scholarship program and how to donate to this great cause, visit www.erefdn.org.
