Graduate Scholarships in Solid Waste Research
Available for the 2015-2016 Academic Year
Deadline May 1, 2015

Raleigh, NC (January 27, 2015) – The Environmental Research and Education Foundation (EREF) is one of the largest sources of solid waste research funding in the U.S., allocating approximately $1 million annually in research grants and graduate level scholarships. Thus far, over 50 students have been EREF scholars, many of whom are now in key academic and professional positions across the U.S. EREF is pleased to announce that scholarship applications for the 2015-2016 academic year are now available. The application deadline is May 1, 2015 at 5:00 pm (eastern).

Applications will be considered from those who:
- will be this year or are now a full-time master's student, doctoral student or post-doctoral researcher, and
- have a clearly demonstrated interest in solid waste management research. EREF defines solid waste management to pertain to municipal solid waste, construction & demolition waste, industrial waste (e.g. coal ash), WTE ash, etc. Note this definition does not include agricultural wastes or wastewater treatment plant sludge.

Scholarships recognize graduate students pursuing excellence in solid waste management research and education. Recipients are chosen based on credentials and potential contributions to the solid waste industry and its scientific community.

Awards are based on:
- Academic performance
- Professional experience
- Relevance of one’s work to the advancement of solid waste management science
- Potential for success

Award amounts consider the cost of tuition at the recipient’s institution and any other funds received. Full scholarships may not be awarded to students who will be receiving full-tuition scholarships from other sources (excluding direct university assistance such as tuition remission or assistantship income) but may still be considered for partial awards.

Doctoral and post-doctoral scholarships are awarded up to a minimum of $12,000 per year and paid monthly. Doctoral/post-doctoral scholarships are renewable each year to a maximum of three years from the initial award date. Master’s scholarships are awarded up to a minimum of $5,000 per year and renewable each year to a maximum of two years from the initial award date. Scholarship renewal is dependent upon satisfactory progress as determined by the student’s academic advisor.
All qualified candidates will be considered for scholarships without regard to race, religion, national or ethnic origin, citizenship, or disability. Applications from students outside the United States or studying abroad will receive equal consideration. Award decisions by the Environmental Research and Education Foundation and its directors are final and not subject to appeal.

More information on EREF’s scholarships, as well as a link to the scholarship application, can be found at [http://erefdn.org/index.php/scholarships/index](http://erefdn.org/index.php/scholarships/index). **The deadline is May 1, 2015 at 5:00 pm (eastern).** Please send an e-mail to scholarships@erefdn.org or call 919.861.6876 with any questions.

EREF is a 501(c)3 class charity that funds and directs scientific research and educational initiatives for waste management practices to benefit industry participants and the communities they serve.
