

ENVIRONMENTAL RESEARCH  
& EDUCATION FOUNDATION  
2020 ANNUAL CHARITABLE AUCTION

(100) 95-Gallon 2-Wheel Carts  
Momentum 728/Truckload

## (100) 95-Gallon 2-Wheel Carts Momentum 728/Truckload

Otto set the standard in 1965 when it developed the 2-wheel injection molded cart. This progressively engineered cart is intended for both semi-automated and fully-automated equipment, while its design and technology make it robust and long-lasting. The Momentum cart is a true Otto-vation, maintaining the quality and durability of earlier designs with an outstanding 728 truck load rate.

Thank you for supporting the 2020 EREF Annual Charitable Auction. Proceeds allow us to fund solid waste research and education initiatives.
